

ROM Telescoping Post-Op Knee Brace

Designed to provide controlled range of motion for patients recovering from knee surgery or those who have knee injuries or instabilities.

Features and Benefits

- Comfortable and extremely lightweight, simple to apply
- Telescoping bars are easily adjusted for a personalized fit
- Universal brace so there are less SKUs to stock in inventory
- Trimmable straps for size customization
- Drop lock features allows brace to be locked out with the push of a button
- Easy to use ROM hinge with quick adjusting flexion and extension stops to control and limit knee flexion and extension
- Quick clip buckles allow for easy application and removal of brace
- Universal size
