FOR IMMEDIATE RELEASE

Aspen Medical Products Supports Hurricane Relief Efforts with Donation to Greater Good Charities

Irvine, Calif. (Oct. 4, 2024) – Aspen Medical Products is proud to announce its continued commitment to helping communities devastated by Hurricanes Helene and Milton through a donation to Greater Good Charities. This contribution will play a pivotal role in providing essential support to the region’s recovery efforts, including aiding shelter pets, feeding pollinators and offering critical supplies to displaced families and veterans.

In the aftermath of the hurricanes, Greater Good Charities has launched a comprehensive response to address the many needs of affected communities. Aspen’s donation will help ensure that lifesaving food and care are delivered to shelter pets across the region. Shelters in the state have raised concerns about heightened demands this winter, and Aspen’s support will help provide pet food through the spring of 2025.

Aspen’s donation is also helping to address the pollinator crisis by supporting Greater Good Charities' efforts to feed over 260,000 hives and 10 billion bees, crucial for crop pollination. Additionally, ACME’s contribution will provide blankets, water and pet-care essentials to displaced families and veterans, aiding both immediate relief and long-term recovery in storm-affected areas.

“We are grateful for the opportunity to partner with Greater Good Charities and contribute to such an important cause,” said Jim Cloar, Aspen’s Chief Executive Officer. “As communities begin to rebuild, we are proud to play a role in supporting them as they recover from the storms.
