SUFFERING FROM LOW BACK PAIN?

“I had no pain all day with this brace.”
Gary A. – PATIENT

• Non-narcotic option
• Low profile design fits under clothing
• Unlocks tight muscles to help relieve spasms
• Comfortable, lightweight and breathable materials
• Medical grade treatment not available in stores

THE BENEFITS OF USING ASPEN BRACES
Supporting the lower back has been proven to reduce pain, improve functional status and lower the need for medication.1

UNDERSTANDING BACK PAIN
Around the site of an injury, back muscles can tighten causing muscle spasms and pain.

TARGETED COMPRESSION
Upper and lower compression delivers localized support where needed. Physical Therapy (PT) patients using an Aspen brace were 4.7 times more likely to have a significant improvement vs PT only patients.2
