

FAQ

Can the brace be worn underneath clothing?

Yes, the brace can be worn underneath clothing, but a cotton undershirt is recommended for enhanced comfort.

Will my health insurance pay for the brace?

Medicare and most private health insurance companies offer coverage for this treatment option. Consult Medicare or your insurance carrier to verify coverage.

REAL PATIENTS, REAL SUCCESS

What do patients have to say about the brace?

HELPED DECREASE DISCOMFORT

"Before I started wearing the brace, I was in excruciating pain. I wear it in the morning...and I'll be good for the rest of the day." — Jennifer, CA

ENHANCED QUALITY OF LIFE

"I like the brace...I do a lot of things outside now that I have not done in 2-3 years...I shovel snow in it." — Larry, WI

INCREASED MOBILITY

"Walking and standing endurance has noticeably improved with the brace. It has made activity possible without becoming so easily fatigued." — Kay, AZ

PROMOTED BETTER POSTURE

"It helps me stand straighter and more secure. When I have it on, I feel my posture change." — Shelli, IL

REGAINED ACTIVITIES OF DAILY LIVING

"This has helped me do the day to day before the brace, I had a hard time sustaining cooking at the stove. With this brace, I'm able to enjoy that again." — Susan, IL

Trusted and Recommended by Professionals

"The thing that stands out to me is that the patients continue to use it. They feel like they have a positive effect even when they are without the brace."

— Pat, Certified Orthotist, IL

"Within a few minutes after we put the Peak on, she was more upright and her pain had been greatly reduced. I have been impressed with the immediate impact it has had on my patients' pain level."

— Gavin, Certified Orthotist, PA

Designed With Your Needs in Mind

The Peak Scoliosis Bracing System™ helps to provide relief of the symptoms associated with Adult Scoliosis. This Active Influence system uses a combination of compression and support to promote better alignment, improve posture and restore a more natural center of gravity.

Pads are placed in specific locations to apply gentle force, helping to create a more natural center of gravity.
