### **Aspen Medical Products Wins the iF DESIGN AWARD 2024 for the VRTX System**

Irvine, Calif. (March 12, 2024) – Aspen Medical Products (Aspen), the industry leader in spine solutions for pain and mobility management, is a winner of this year’s iF DESIGN AWARD for the VRTX System in the product discipline, medicine/health category.

Each year, the world’s oldest independent design organization, Hannover-based iF International Forum Design GmbH, organizes the iF DESIGN AWARD. VRTX won over the 132-member jury, made up of global independent experts, with its modular, low-profile design and enhanced features for efficient and accurate application. Almost 11,000 entries were submitted from 72 countries.

The VRTX System stands as the pioneering off-the-shelf cervical to sacrum system, revolutionizing spinal care within acute care environments. Engineered with a prefabricated design and intuitive adjustable sizing, clinicians can fit patients and stabilize the spine immediately. Its modularity comfortably supports a diverse range of patient anatomies and improves patient outcomes by expediting ambulation.

“Receiving the iF DESIGN AWARD is a testament to our product innovation and quality, our commitment to improvement of patient and clinician outcomes, and the Aspen team’s hard work and dedication,” said Jim Cloar, Aspen’s Chief Executive Officer.

More information about the VRTX System can be found in the “Winners & iF Ranking” section on [ifdesign.com](http://ifdesign.com).
