

November 1, 2021

To Our Valued Customers,

Thank you for your commitment and loyalty to Aspen Medical Products. For more than 28 years, innovation, quality, and patient outcomes have been our highest priority. Our goal is always excellent customer care and product support while we meet your needs and the needs of your patients.

Aspen is now challenged with a global supply chain crisis. Although raw materials and shipping costs have risen dramatically, we are successfully managing the situation and have increased inventory to ensure seamless supply. Aspen has not raised prices since the company's inception, and these dramatic increases have represented unprecedented challenges that have required us to implement solutions that maintain our commitment to product quality, patient care, and customer success.

Due to the rise in global inflation and manufacturing costs, **prices across all product lines will increase by 5.5 percent effective January 3, 2022.** We will honor the terms of existing contracts, and all orders made before January 3, 2022 will reflect the current pricing.

We truly appreciate your continued support of Aspen, and we are grateful that you have partnered with us to help serve your patients. Please contact pricing@aspenmp.com for any questions or concerns.

Thank you again for choosing Aspen Medical Products.

Sincerely,
Your Aspen Corporate Team
